# ABOUT THE PROGRAMS

## Astronomy and Solar Energy

In this course, fully taught in English, you will understand the power of the light during day and night and also you will explore how the daylight and solar energy is used in Chile to power its transition towards sustainable energy.

## Discover Latin American Literature and Learn Spanish

In this course there will be a combination of Spanish classes with readings and discussions of works of fiction and poetry that inform the reader of the place of the human being in relation to nature, community and history with emphasis on idealized societies in Latin America.

## Doing Business In Latin America

The programme will explore diverse topics such as the Chilean entrepreneurial ecosystem, Latin American socioeconomic context, international trade, consumer trends and insights and sustainable innovation in multinationals, though the expertise of leading academic scholars and professional experts in the field.

## LOCAL VISITS

### ASTRONOMY AND SOLAR ENERGY:

- Antofagasta or La Serena (depending on climate conditions in winter or summer)
- Sight visits in Santiago to ESO, local observatories such as Manuel Foster at San Cristobal Hill.

### DOING BUSINESS IN LATIN AMERICA:

- Isla Negra, Valparaíso and Viña del Mar
- Santa Cruz
- The vineyard of Concha y Toro

### DISCOVER LATIN AMERICAN LITERATURE AND LEARN SPANISH:

- Chilean Coastal Area (Valparaíso, Viña del Mar, Isla Negra)
- Cajón de Mapo
- sites within the Metropolitan area of Santiago

## WHY CHILE?

- Almost 70% of the capacity for observing the universe is located in Chile
- Chile has the highest level of solar incidence and is the sight of Latin America's first solar thermal plant.
- Chile is positioned as a Latin American Hub when it comes to trade and business
- A solid economic foundation and OECD's highest ranking in south american economy
- Chile has 25 international trade agreement with more than 64 countries in the world

## WHY UDP?

- Modern high-quality research and teaching university.
- Amongst the top universities with a public and social commitment.
- Leading academics with up-to-date local and international knowledge in their field, connected with the industry and local government.
- Recognized as top 3 in Latin America in the Times Higher Education Young Universities Ranking.
